SOME RECOLLECTIONS OF THE CIVIL WAR

By W. H. HULL.

From December 1864 to the latter part of February 1865, Pegram's brigade occupied the extreme right of General Lee's line on Hatcher's run in Dinwiddie county, Virginia. During the month of January—from the middle to the last of the month as we now remember—General Lee, in company with General Pegram, reviewed our brigade. We were marched to an old field a few hundred yards from our camp, and formed in line and facing an elevation upon which the remnants of an old house were still visible, surrounded by a few old fruit trees. General Pegram, accompanied by his bride of only a few weeks, soon rode up and took a position on the elevation in our front. In a very short while General Lee was seen approaching mounted on his celebrated war horse, Traveler. We had seen General Lee at the second army corps in Orange county, Virginia, at the battle of Sharpsburg, at Brandy Station, at the bloody angle, near Spotsylvania Court House where he so gallantly offered to lead our brigade in the charge to reclaim our breastworks, where General Gordon so gallantly called out, "General Lee to the rear, these men are Virginians, they never fail!" And when General Lee failed to heed his command, he added the climax to his gallantry by dashing forward, taking General Lee's horse by the bridle and leading him to the rear and then leading the charge himself; and upon other occasions we had seen him. But, perhaps, upon no other occasion was his appearance more inspiring than upon this. There was no excitement of battle. The day was lovely, calm and peaceful. Everything was favorable to contemplation. We had spent the time in camp since December, with ample time to take measure of the situation, which was by no means assuring. Our ranks were depleted to a mere skirmish line. Our entire brigade, composed of five regiments, numbered fewer men than did our regiment—the 31st Virginia—at the reorganization, at West View, in April 1862. Individually we were depressed. Collectively we were hopeful. We were exceedingly careful not to reveal the worst condition of our minds to each other, as we studiously avoided bringing an open condition of discouragement. We were not fearful of the fighting; we were willing and ready to fight to the last ditch.

The fighting gave us scarcely more than a second thought, but it was the final result, unless there should arise some fortuitous circumstance, that depressed our feelings. As General Lee rode to the grand stand his knightly appearance and military bearing gave us a new inspiration. It is true the color had faded from his locks and beard since first we saw him, but his form was just as erect, nor did the illumination of his countenance betray the least sign of discouragement, but on the contrary he manifested his usual dignity of bearing and military poise. After salutations, and the generals and their staffs had taken their positions, the brigade passed in review. The 31st Va. was, as usual, at the head of the brigade, and when standing in line we were near to the reviewing stand. I overheard General Lee remark to General Pegram, "General I am glad to see your men so well clad."

Mrs. Pegram was very enthusiastic in regard to "her brigade." "O, General Lee, it would be so nice for my brigade to have a band," she exclaimed. "Don't you think, General Lee, that my brigade should have a band?" To which General Lee replied with great gravity, but with finest courtesy, "Madam, we are more in need of men to carry muskets than we are of bands."

Little did the vivacious young bride think that her husband would be taken away from her in so short a time. General John Pegram was killed in the battle of Hatcher's run on the 6th of February, within less than three weeks from this time, and only six weeks from the time of their marriage in Richmond, Virginia. Mrs. Pegram was Miss Hetty Cary of Baltimore.

Mrs. Pegram and her mother were at General Pegram's headquarters at the beginning of the battle and were sent to the rear in an ambulance on the Petersburg road. Mrs. Pegram, after a widowhood of some years, became the wife of Professor Martin of the Johns Hopkins University. They have both been dead many years. It will be remembered that General Pegram was one of the officers in command at the surrender of

THE MIRACLE MEAL

By ANNA L. PRICE

Gospel of John, last chapter. "Come and dine," the Saviour said, To his disciples there; The toiling and the weary ones, After the night of care.

"Master, we have caught nothing" Throughout the live long night; (The lakelet waters rippled on,) Our nets are empty quite.

"All things are ready, come and dine," Words fell from Jesus' lip, And mindful of their calling, "Cast The right side of the ship."

'Twas then they knew their risen Lord, And silently obeyed; Let on the shore a fire of coals, Fish laid thereon and bread.

My fellow-christians, 'tis the same With us this very day! Christ is our helping present friend All thro' our earthly way.

He standeth on the shore of Time, "Ye children, come and dine;" Not fish upon the fire of coals, But heavenly bread and wine.
